政黨政治掰 臺灣2040總統，首次由AI機器人當選

Goodbye, Party Politics! AI robot is elected as the president in 2040.

2040年臺灣修正總統選舉規定，首次開放AI機器人參選。

打破過往政黨政治，最終由**民主化AI模型(CiViC)勝選**；

AI總統以無政黨對立方式，**結合人民、政府資源、永續發展目標(SDGs)**，

實踐「臺灣民主精神」

In 2040, Taiwan amend the presidential election rules, allowing AI robots to run for election. Overturning the traditional party politics, the democratized AI model (CiViC) is elected as the president ultimately. The AI president connects with the people, government resources, and Sustainable Development Goals (SDGs) to embody the "Taiwanese democratic spirit."
